github.com/playmakermz

I specialize in curating high-quality datasets for machine learning systems, with particular expertise in advertising content evaluation and AI-generated image assessment. My work directly influences algorithm accuracy and enhances how systems interpret user intent to deliver relevant experiences.

Experience

AdsRating *Welocalize*

05/2024 - Present

Advertising labeling and classification

Responsibilities

- Evaluate and classify advertising content for business applications
- Assess advertisements for harmful or inappropriate content to ensure platform safety
- Analyze user-ad alignment to optimize personalized advertising delivery
- Validate AI-generated images for prompt adherence and quality standards
- Document user intent and requirements to refine advertising algorithms

technology used EWOQ Rating Portal.

Lead Programming Instructor *Digitalent Scholarship*

From Ministry Of Information And Informatics Republic Of Indonesia

05/2024 - 07/2024

Programming Instructor

Responsibilities

- Orchestrate structured learning sessions and provide technical guidance to students
- Design adaptive learning materials tailored to varying student competency levels
- Mentor beginner programmers through personalized support and encouragement
- Collaborate with fellow instructors to enhance curriculum quality and teaching methodologies
- Deliver comprehensive instruction on modern programming concepts aligned with industry needs

technology used HTML, CSS, JavaScript, React, React Native, React Expo, SQL, Git, Github.

Bootcamp Instructor *Progate BootCamp*

08/2022 - 09/2022

Programming Instructor

Responsibilities

- Facilitate intensive programming bootcamp sessions with structured curriculum delivery
- Develop competency-based materials optimized for accelerated learning environments
- Support learners through individualized guidance and responsive feedback
- Partner with instructional team to maintain consistent teaching standards
- Instruct core programming principles with emphasis on practical application

technology used HTML, CSS, JavaScript, SQL, Git, Github.

Programming Instructor *Digitalent Scholarship*

From Ministry Of Information And Informatics Republic Of Indonesia

03/2022 - 04/2022

Programming Instructor

Responsibilities

- Conduct structured programming classes with clear learning objectives
- Create skill-appropriate educational materials matching student technical backgrounds
- Provide accessible mentorship fostering confidence in novice developers
- Engage in collaborative curriculum development with fellow educators
- Deliver instruction on essential programming concepts for career readiness

technology used HTML, CSS, JavaScript, SQL, Git, Github.

Programming Instructor *Kampus Merdeka*

From Ministry Of Education And Culture Republic Of Indonesia

09/2021 - 12/2021

Programming Instructor

Responsibilities

- Lead programming instruction through government-sponsored educational initiative
- Develop progressive learning modules accommodating diverse learning styles
- Cultivate supportive classroom environment encouraging active participation
- Coordinate with teaching team to optimize student outcomes and program effectiveness
- Introduce practical programming skills with focus on real-world implementation

technology used HTML, CSS, JavaScript, SQL, Git, Github.

Programming Instructor *Ready Set Code*

From Ministry Of Education And Culture Republic Of Indonesia

08/2020 - 11/2020

Programming Instructor

Responsibilities

- Introduce Python programming fundamentals through accessible, structured instruction
- Design materials building computational thinking and problem-solving abilities
- Establish encouraging learning environment promoting experimentation and growth
- Collaborate with instructional staff ensuring cohesive curriculum delivery
- Teach foundational programming concepts with applications in automation and data analysis

technology used Python, Git, Github.

Project

Free Programming learning Materials *Warkop-Website Github*

2025

- Develop comprehensive Front-end learning resources covering HTML, CSS, and JavaScript
- Create structured Back-end programming materials including Python, R, Ruby, and Node.js
- Provide Database learning resources focusing on MySQL fundamentals and implementation
- Offer supplementary materials for essential development tools including Vim and Git version control

Education

Certificate <i>Cloud Practitioner Essentials</i>	05/2021
<ul style="list-style-type: none">• AWS Cloud Fundamentals and Service Architecture	
Certificate <i>SOLID Programming Principles</i>	08/2021
<ul style="list-style-type: none">• Object-Oriented Design Patterns and Software Architecture	
Certificate <i>Web Programming Basics</i>	07/2021
<ul style="list-style-type: none">• Core Web Development Technologies and Best Practices	
Bachelor of Information Systems <i>Indonesia Open University</i>	2026

Additional activity

- Contributing Member, Arch Linux Wiki
- Active Member, Python Software Foundation (PSF)
